Ask the Doctor

Chronic Kidney Disease:

Ten questions to ask your physician

- #1 Are my results accurate?**
- #2 Where can I or my physician find additional information on kidney disease?**
- #3 What is the cause of my CKD?**
- #4 What is the appropriate treatment for my stage of CKD?**
- #5 What are the changes in medication that are necessary and are there any drugs that I should avoid?**
- #6 What about my diet?**
- #7 What should I tell my family members about my kidney disease?**
- #8 When should I be seen by a kidney specialist?**
- #9 What are the complications of CKD?**
- #10 Do I need any planning for kidney failure (CKD Stage 5)?**
